

# Desk Surfer™

*Balance platforms have been used clinically for decades to the treat balance challenges. We've developed a workplace module that can improve posture, balance, work environment, brain function, circulation and metabolism.*

*Standing desks are extremely popular, and changing position from sitting to standing during intervals at work can provide benefits- The Desk Surfer™ enhances these benefits!*

**The Desk Surfer™ can help you:**

- **Increase Metabolism**
- **Improve Circulation**
- **Improve Balance**
- **Improve Cognitive Function**
- **Increase Work Quality & Volume**

Standing desk users tend to experience more pain in the lower back, legs, hips and feet. Our patent pending adjustable stability design can provide the following health and cognitive benefits:

- 1) Increased Metabolism- a significant increase in caloric expenditure vs. stationary work posture.
- 2) Improved Circulation- the calf pumping action and stabilizers of the lower extremities required for balance assist the return of blood from legs and feet and minimize numbness.
- 3) Improved Balance- balance can be improved dramatically when challenged. The Desk Surfer™ technology has a twenty year pedigree in improving balance.

4) Improved Cognitive Function- Although previous reports showed that only rigorous exercise stimulated [Brain](#) Derived Neurotrophic Factors, researchers have more recently found that even a light exercise routine may be sufficient. These findings indicate that everyone can enjoy the cognitive benefits of exercise by simply engaging in light activities such as balance training.

5) Works for Everyone- The adjustable stability of the Desk Surfer™ can be adjusted to accommodate a wide variety of users up to 300 pounds.

6) Work Output- Studies have shown that standing workspaces can create more volume and accurate outcomes than seated- The Desk Surfer™ should enhance employee productivity and work experience!

- **Footprint: 23” Diameter (58 cm)**
- **Step-up Height: 4 1/4”**
- **360° Range of Motion**
- **No Power Required**
- **Easily Transported or Stored Away**
- **Product Weight: 13 lbs.**
- **User Weight Capacity: 300 lbs. (227 kg)**
- **Warranty: 1 Year**
- **Made in the USA**

*Put the new Desk Surfer™ to work in your business- and reap the ROI of healthier more productive employees!*
